

Pick an Option Worksheet

1. In the first column, list the top five most feasible solutions.
2. In the middle columns, use a +1, 0, or -1 to rate the quality of the possible solution for each dimension.
3. In the last column, add up the numbers for each solution. The one with the largest number is the best solution.

Solution	Satisfies Short-Term Goals	Satisfies Long-Term Goals	Impact on Self	Impact on Others	Likelihood of Success	Final Rating
1.						
2.						
3.						
4.						
5.
